DYNA-SONIC

If you've never tried a Rogers Dyna-Sonic drum, you have yet to experience what lies beyond the limits of traditional snare drum design. This extraordinary instrument is the realization of a dream to build a totally live, touch-reactive snare drum... with the ability to voice every nuance of a player's personality.

37BKL

36BKL
5" x 14" Dyna-Sonic
Black Lacquer finish

37RO
6.5" x 14"
Dyna-Sonic
Red Onyx finish

Featuring Rogers' famous floating snare rail system, the Dyna-Sonic is a masterwork in sonic design, painstakingly crafted to modern specs for build quality and consistency. Available in both 5" x 14" and 6.5" x 14" sizes. Featuring Rogers' own proprietary formula, 5-ply North American hardwood shells with reinforcement rings. Take your playing to the next level with pin-point responsiveness, feel and tone that you'll only get from a dual live-head snare drum.

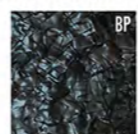

Current Delmar finishes - available in both 5" and 6.5" drums:

Red Onyx

Blue Onyx

Black Diamond Pearl

White Marine Pearl

CUSTOM BUILT SNARE DRUM

The Rogers Dyna-Sonic legacy of preeminent snare drums includes their original, popular Chrome-Over-Brass metal shell models that offered a full-timbre presence, volume and excellent climate stability.

While wood shells offer a warm but resonant tonality, a metal shell is louder, brighter and more articulate. The darker character of brass makes it warmer than more rigid metals. It's why brass has been long known as an excellent material for orchestral instruments, producing a very musical response.

With the new B7 Brass Shell Dyna-Sonic snare drums, Rogers USA envisioned a beautiful, natural brass 14" shell with a 1.2mm thickness. All B7 models feature the original 7-Line Dyna-Sonic styling in three dynamic shell sizes: 5" traditional, 6.5" concert and 8" super concert depths. Add the legendary Rogers' floating snare rail system, and you have a versatile, powerful and drop-dead gorgeous instrument that is suitable for all musical styles.

ROGERS' ORIGINAL
LIGHTWEIGHT HARDWARE

Rogers is proud to announce the debut of our new Covington Series drum kits. Built in the USA using the same proprietary shell construction as the Dyna-Sonic snare, 5-ply maple/poplar with reinforcement rings, these kits represent the pinnacle of Golden Age drum craftsmanship. The Covington Series beautifully bridges the classic with the contemporary, featuring timeless signature appointments, like beaver-tail lugs, bow-tie tension rods and script logo badges with new, tool-less 'clockface' leg mounting hardware.

Offered in either Black Lacquer or Red Ripple finishes, both Covington 3-pc shell packs come in two size configurations:
14" x 22" • 16" x 16" • 8" x 12"
14" x 20" • 14" x 14" • 8" x 12"

In addition, both shell packs are also offered with your choice of either:
• Traditional hex/steel floor tom legs & 12.7mm 'gullwing' bass drum spurs or
• Lightweight aluminum 12.7mm floor tom legs and aluminum 12.7mm 'gullwing' bass drum spurs
Matching finish Dyna-Sonic snare drums and stands are sold separately.

The wait is over. Welcome to the Future...
with Rogers Drum kits and accessories.
