why Dyna-Sonic?

If you've never tried a Rogers Dyna-Sonic drum, you have yet to experience what lies beyond the limits of traditional snare drum design.

This extraordinary instrument is the realization of a dream to build a totally live, touch-reactive snare drum... to voice every nuance of a player's personality.

CUSTOM BUILT SNARE DRUMS

Black Diamond Pearl

Classic
COVINGTON

The new classic finish Covington kits.

Featuring Rogers' signature appointments: beavertail lugs, bow-tie tension rods and script logo badges with new, tool-less 'clockface' mounting hardware. Built in the USA using Rogers' proprietary 5-ply maple/ poplar with reinforcement rings, these kits represent the pinnacle of Golden Age drum craftsmanship.
